EXTENSION T

SYSTEM FOR LIM04, COLORS AND KERAMIK TABLES

The system finalized by the MDF Italia Project Team makes these tables up to 110 cm longer. Extractable frame made with nickel-plated steel bars sliding on bushes. The additional tabletops are fitted into shaped angles underneath the table frame, are made of MD wood fibreboards veneered in anodized aluminium only. Provided with a magnetic levelling and locking device, a patent from MDF Italia, they are easy to apply to the frame (Patent pending).
