Minima 60 – Design: Bruno Fattorini

Modular shelving system in anodized aluminium (W23-5/8). The compartments, with an inside height of 13-3/4, can be divided in height with a structural shelf (h6-7/8 and 6-1/4). Shelves, in panels made combining anodized aluminium sheets with extruded plastic material, or glass. Height 19-1/8, length 27-1/2 or 41-3/4. The system can be closed off with drawers or large drawers. Top in Carrara marble or wenge. Special equipment for shelves, drawers and large drawers.

MDF
