Eleven Five

Design: Bruno Fattorini

A wall panel self-supporting system which can incorporate shelves and cabinets with shelves. It can be flanked with other products of the MDF Italia collection such as, for example, Minima and Lowboard. The panels come in length 31-1/2 (only intermediate and single), 39-3/8 or 47-1/4, in height 85-1/8 and thickness 1-1/8, available in various finishes: matt lacquered in white or anthracite grey, or matt veneered in ash grey

oak or clear oak, or covered with natural anodized aluminium. The shelves, in anodized or polished aluminium, are inserted into the panels, either side-by-side and/or one over the other at a distance of 11 or 13-3/4. Length 31-1/2, 39-3/8 and 47-1/4, width 11-3/4 and 16-7/8. The cabinets with upper and bottom shelves from natural anodized or polished aluminium are made from wood fibreboards, gloss lacquered in white, black, grey, anthracite grey, red, green, yellow and orange, or matt veneered in ash grey oak or clear oak. The cabinets with shelves in length 31-1/2, 39-3/8 and 47-1/4 are 16-7/8 wide (with door, drawers or large drawer) or 11-3/4 (with door). Height 11-7/8 or 23-1/4 cm. The cabinet with large drawer is available only in height 11-7/8. A wide choice of accessories. The Elevenfive system offers also the possibility of plasma TVs flush-mount installation directly into the panel. The Elevenfive system provides the LDC/Plasma Television System which allows the flush-mounting of LCD/Plasma TVs directly into the panel.
